ABD's Integrated Manufacturing Facility at Rangapur bags the Best Factory Award

~ ABD's Rangapur facility earns top honours, reinforcing its manufacturing edge ~

~ State government honours ABD on International Labour Day 2026 for manufacturing and management excellence ~

Mumbai, 5th May 2026: Allied Blenders and Distillers Limited (ABD), the largest domestic spirits company by volume in India, has been awarded the **Best Factory/Management Award for its integrated manufacturing facility at Rangapur, Wanaparthy district, Telangana**. The recognition was conferred by the **Labour, Employment, Training & Factories Department (LET&F), Government of Telangana**, during the **Labour Day** celebrations held on 1st May 2026.

ABD's Integrated Manufacturing Facility at Rangapur is one of the company's key production hubs, comprising an **ENA distillery**, an **IMFL bottling unit**, and a **PET bottle manufacturing plant** which was recently commissioned in September 2025. This integrated infrastructure grants the organization **enhanced oversight of production cycles, cost structures, and supply chain logistics**. The facility's capabilities are set to expand with an **upcoming malt distillery**, a strategic addition designed to bolster ABD's premium portfolio and establish robust **single malt production capabilities**.

The facility has a total workforce of approximately 1,500 and stands out for its strong gender diversity, with women constituting around 50% of the workforce. Industrializing a large-scale, formal industrial presence here, ABD has opened new pathways to skilled and semi-skilled employment for local communities, providing stable livelihoods and expanding economic opportunities in the region.

Instituted as part of the district-level May Day awards and anchored in the Government of India's Skill India mission to build a workforce-ready, compliance-driven manufacturing ecosystem, the recognition follows a rigorous evaluation across safety standards, statutory compliance, employee welfare, and CSR contributions.
